The Murkowski trip is the 25th, and the plan is for Dennis, you, and Arvin Ganesan (AA for OCIR) from HQ will be accompanying the senator.

Last week we heard a rumor that Lubchenco was going to do a fly-over but this is the first word I've heard that there is a plan.

Can you stay for the 26th and accompany her?

Please see Ted's question #2 below. This is tied to the proposed Murkowski Trip. Can you shake the tree and see if a schedule and itinerary falls out?

# Non-Responsive

2. Dr. Luchencho, NOAA/NMFS, will be in Alaska next week and will be traveling out to the Pebble Mine area. NOAA/NMFS has asked if an EPA person would like to accompany her on that trip, 26 August. They will be leaving Merrill field flying out along Cook Inlet, stopping in Dillingham, Iliamna then return along the proposed road corridor to the Inlet and back to Anchorage. They would like an answer as soon as possible if we have someone to accompany her. As Director of AOO, I know that you will be in Seattle then and our Mining Coordinator, Cindi Godsey, will be in Kivalina that day. Do you have any other ideas? Phil North is located in Soldotna which would mean he would have to come up to Anchorage to get on the flight and return the next day. As acting Deputy I could go, but I am scheduled to be the hearing officer for the two last air permit hearings in Anchorage beginning at 6p.m. that night. Please let me know if you have any ideas, or give me a call if you would like to discuss.

Thanks

TR
